Attachments: F.J. Doyle Asbestos.Demolition Notification Form - USEPA R6 Removal Action - Leonard, Texas.doc

Hi, Gary. I started the notification on the DSHS web-page. Evan was kind enough to review the attached a few minutes ago.

We are assuming due their proximity to the site that Republic Services will ultimately transport/dispose of the debris generated from the building's demolition. We can go ahead and submit the application to ensure that we are in accordance with the 10-business day advance requirement. In the past, if we had to change the transporter/disposal facility prior to beginning structural demolition, we submitted an amendment and that usually was approved within a couple of days by the state.

If you have any questions or comments, please let me know when convenient.

Regards,

Don
